

> Refresh your Mind and Body with
ViSalus NEURO® Smart Energy†

1. WHAT IS VISALUS NEURO?

ViSalus NEURO is a healthy, low-caffeine (45 mg) powdered energy drink mix that supports your body and brain with healthy energy, while delivering other nutritional benefits. For example, the patent-pending blend of ingredients features Rhodiola Extract to help support stamina and endurance and DMAE to support brain function. Additionally, NEURO is formulated with natural caffeine (45 mg, which is less than that in 1/2 cup of coffee) combined with a blend of B Vitamins to help support your body's natural energy. And, Vitamin C is added for immunity support.†

2. HOW DOES IT COMPARE TO OTHER ENERGY SUPPLEMENTS?

NEURO uses a patent-pending blend of ingredients with relatively low levels of taurine, caffeine and no added sugar to provide "smart energy" to support your body's natural energy and healthy brain function.† Many other energy drinks use high levels of caffeine, taurine and sugar that can often leave you feeling jittery.

3. WHAT IS THE RECOMMENDED DAILY DOSE?

Take a sip from a 16.9 fl. oz. (0.5 liter) bottle of water to allow room for NEURO. Pour packet contents into bottle of water. Cover and shake bottle until drink mix is dissolved. Or, pour packet contents into a 16 fl. oz. glass of water or other beverage and stir until dissolved. You may consume 1-5 servings per day.

4. WHO SHOULD TAKE THE PRODUCT?

NEURO is low in caffeine and sodium and is designed for adults interested in refreshing their mind and body with a gentle lift of energy.† However, as with all products, we recommend that you consult your healthcare professional prior to use if you have or suspect a medical condition, or are taking prescription drugs, or are pregnant or lactating.

5. WHAT ARE THE BENEFITS OF CAFFEINE?

Caffeine is known to help stimulate the brain and body. Though there is no nutritional need for caffeine, moderate caffeine intake is not associated with any known health risks, and has been shown helpful in many clinical studies.†

6. IS THIS PRODUCT GLUTEN-FREE?

Yes, NEURO is gluten-free.

7. IS THIS PRODUCT LACTOSE-FREE?

Yes, NEURO is lactose-free.

8. IS NEURO APPROPRIATE FOR ATHLETES?

Absolutely. And, NEURO does not contain any ingredients on the Olympic-banned substances list.

9. CAN I MIX NEURO IN LIQUIDS OTHER THAN WATER?

Sure. Try mixing it up with juice, lemonade, iced tea, hot tea or any other beverage of your choice—even your Vi-Shape® shake. You can also add flavor variety by adding your favorite Shape-Up Health Flavor Mix-In to NEURO.

10. WHAT FLAVORS IS NEURO AVAILABLE IN?

NEURO is available in two great flavors—Lemon Lift and Raspberry Boost. For added convenience, each NEURO flavor is also available in two package sizes—a box of 15 single-serve packets for portability and a jar with 25 servings for economy.

11. WHAT IS THE DIFFERENCE BETWEEN NEURO AND VISALUS PRO™?

NEURO is a powdered drink mix, available in Lemon Lift and Raspberry Boost flavors, that is suggested for use anytime you are looking for a mind and body refresher. NEURO contains relatively low-levels of taurine and caffeine combined with many other brain health and natural energy supporting ingredients, thus we call it “smart energy” for its beneficial effects in boosting alertness and mental acuity. ViSalus PRO is a powdered drink mix, available in PassionFruit flavor, that is suggested for use before or during a workout, or anytime you want an energy lift that lasts. PRO uses a triple action blend of extracts, antioxidants and vitamins & minerals to support athletic energy and endurance, thus we call it “prolonged energy”[†]
